---

Block grant requests are evaluated by the Graduate Committee. For all requests, your description should include an indication of the source and amount of any cost-sharing, as well as the amount and purpose of any other block grant support this academic year. For requests to fund research expenses, please have your advisor send a message to the chair of the Graduate Committee indicating support of the request. For conference travel support, please indicate whether you are presenting a paper or poster, the title of your paper, and the name of the conference (or simply attach a copy of the conference schedule or your acceptance letter). If you think committee members might not be familiar with the conference, a brief statement of the importance of the conference for your work would be helpful.
